

CURRICULUM VITAE

SHAUN M. EACK

2117 Cathedral of Learning
School of Social Work
University of Pittsburgh
Pittsburgh, PA 15260
sme12@pitt.edu

EDUCATION:

Doctor of Philosophy, 2009

University of Pittsburgh

Major: Social Work

Master of Social Work, 2003

University of Illinois at Urbana-Champaign

Specialization: Community Mental Health

Bachelor of Science, 2002

University of Illinois at Urbana-Champaign

Major: Psychology

ACADEMIC EMPLOYMENT:

2019 - **Professor** (secondary appointment), Department of Psychiatry, University of Pittsburgh School of Medicine

2018 - **James and Noel Browne Endowed Chair**, School of Social Work, University of Pittsburgh

2018 - 2023 **Associate Dean for Research**, School of Social Work, University of Pittsburgh

2016 - **Professor** (secondary appointment), Clinical and Translational Science Institute, University of Pittsburgh School of Medicine

2016 - **Professor** (secondary appointment), Department of Psychology, University of Pittsburgh

2016 - **Professor**, School of Social Work, University of Pittsburgh

2016 - 2018 **David E. Epperson Professor**, School of Social Work, University of Pittsburgh

2015 - 2016 **David E. Epperson Associate Professor**, School of Social Work, University of Pittsburgh

2015 - 2016 **Associate Professor** (secondary appointment), Department of Psychology, University of Pittsburgh

2014 - 2016 **Associate Professor**, School of Social Work, University of Pittsburgh

2014 - 2016 **Associate Professor** (secondary appointment), Clinical and Translational Science Institute, University of Pittsburgh School of Medicine

2009 - 2014 **Assistant Professor**, School of Social Work, University of Pittsburgh

2009 - 2019 **Assistant Professor** (secondary appointment), Department of Psychiatry, University of Pittsburgh School of Medicine

2010 - 2014 **Assistant Professor** (secondary appointment), Clinical and Translational Science Institute, University of Pittsburgh School of Medicine

- 2007 - 2009 **Predocctoral Fellow**, School of Social Work and Department of Psychiatry, University of Pittsburgh
- 2004 - 2007 **Graduate Student Assistant**, School of Social Work, University of Pittsburgh
- 2000 - 2004 **Unix Systems Administrator**, Wolfram Research Inc.

TEACHING EXPERIENCE:

- Fall, 2022 **Social Work Research Methods I (Ph.D., 9 students)**, School of Social Work, University of Pittsburgh
- Fall, 2021 **Social Work Research Methods I (Ph.D., 7 students)**, School of Social Work, University of Pittsburgh
- Fall, 2020 **Social Work Research Methods I (Ph.D., 4 students)**, School of Social Work, University of Pittsburgh
- Fall, 2019 **Social Work Research Methods I (Ph.D., 4 students)**, School of Social Work, University of Pittsburgh
- Fall, 2018 **Social Work Research Methods I (Ph.D., 5 students)**, School of Social Work, University of Pittsburgh
- Fall, 2017 **Social Work Research Methods I (Ph.D., 6 students)**, School of Social Work, University of Pittsburgh
- Fall, 2016 **Social Work Research Methods I (Ph.D., 4 students)**, School of Social Work, University of Pittsburgh
- Spring, 2016 **Data Analysis and Preparing a Scientific Poster, Foundations of Social Work Research (BASW, 30 students)**, School of Social Work, University of Pittsburgh
- Fall, 2015 **Social Work Research Methods I (Ph.D., 4 students)**, School of Social Work, University of Pittsburgh
- Spring, 2015 **Data Analysis and Preparing a Scientific Poster, Foundations of Social Work Research (BASW, 30 students)**, School of Social Work, University of Pittsburgh
- Fall, 2014 **Social Work Research Methods I (Ph.D., 7 students)**, School of Social Work, University of Pittsburgh
- Spring, 2014 **Data Analysis and Preparing a Scientific Poster, Foundations of Social Work Research (BASW, 25 students)**, School of Social Work, University of Pittsburgh
- Fall, 2013 **Social Work Research Methods I (Ph.D., 5 students)**, School of Social Work, University of Pittsburgh
- Spring, 2013 **Data Analysis and Preparing a Scientific Poster, Foundations of Social Work Research (BASW, 30 students)**, School of Social Work, University of Pittsburgh
- Fall, 2012 **Generalist Foundations of Social Work Practice (MSW, 35 students)**, School of Social Work, University of Pittsburgh
- Spring, 2012 **Data Analysis and Preparing a Scientific Poster, Foundations of Social Work Research (BASW, 35 students)**, School of Social Work, University of Pittsburgh
- Fall, 2011 **Generalist Foundations of Social Work Practice (MSW, 26 students)**, School of Social Work, University of Pittsburgh
- Summer, 2011 **Community-Based Intervention Research for Underserved and Minority Populations (25 students)**, Society for Social Work and Research

Fall, 2010	Foundations of Social Work Research (BASW, 20 students) , School of Social Work, University of Pittsburgh
Spring, 2010	Foundations of Social Work Research (MSW, 29 students) , School of Social Work, University of Pittsburgh
Fall, 2009	Foundations of Social Work Research (BASW, 18 students) , School of Social Work, University of Pittsburgh
Spring, 2009	Mentoring Case Management for Individuals with Severe Mental Illness (19 students) , School of Social Work, University of Pittsburgh
Fall, 2006	Foundations of Social Work Research (MSW, 31 students) , School of Social Work, University of Pittsburgh

10. Wojtalik, J. A., Eack, S. M., & Keshavan, M. S. (2020, January). *Confirmatory efficacy of cognitive enhancement therapy for early course schizophrenia: Results from a multi-site randomized trial*. Paper presented at the 24rd annual meeting of the Society for Social Work and Research, Washington, DC.
11. MacKenzie, K., & Eack, S. M. (2019, January). *Interventions to improve outcomes for parents of individuals with autism spectrum disorder: A meta-analysis*. Poster presented at the 23rd annual meeting of the Society for Social Work and Research, San Francisco, CA.
12. Wojtalik, J. A., Eack, S. M., & Keshavan, M. S. (2019, April). *Confirmatory efficacy of Cognitive Enhancement Therapy for early schizophrenia: results from a multi-site randomized trial*. Paper presented at the 2019 Congress of the Schizophrenia International Research Society, Orlando, FL.
13. Wojtalik, J. A., Keshavan, M. S., & Eack, S. M. (2019, January). *Neuroprotective effects of Cognitive Enhancement Therapy against gray matter loss in early course schizophrenia: First results of a 10-year follow-up study*. Paper presented at the 23rd annual meeting of the Society for Social Work and Research, San Francisco, CA.

14. Demro, K., Guimond, S., Padani, S., Thermenos, H., Mesholam-Gately, R. I., Kline, E., Eack, S. M., & Keshavan, M. S. (2018, September). *Neural correlates of impaired theory of mind in schizophrenia*. Poster presented at the 32nd annual meeting of the Society for Research in Psychopathology, Indianapolis, IN.
15. Kuo, S. S., Wojtalik, J. A., Mesholam-Gately, R. I., Keshavan, M. S., & Eack, S. M. (2018, September). *Invariance of the MATRICS consensus cognitive battery across schizophrenia and autism spectrum disorder*. Poster presented at the 32nd annual meeting of the Society for Research in Psychopathology, Indianapolis, IN.
16. Eack, S. M., Garland, E. L., Smith, M. J., Wojtalik, J. A., & Howard, M. O. (2018, January). *Social work and neuroscience: Using neuroimaging to study and address social problems*. Symposium presented at the 22nd annual meeting of the Society for Social Work and Research, Washington, DC.
17. Eack, S. M., Hogarty, S. S., Greenwald, D. P., Mazefsky, C. A., & Minshew, N. J. (2018, January). *Cognitive Enhancement Therapy improves social brain function in adult autism spectrum disorder*. Paper presented at the 22th annual meeting of the Society for Social Work and Research, Washington, DC.
18. Eack, S. M. & Keshavan, M. S. (2017, May). *Impact of antipsychotic medication dose and adherence on improvement during cognitive remediation in early course schizophrenia*. Paper presented at the annual meeting of the American Society for Clinical Psychopharmacology, Miami, FL.
19. Wojtalik, J. A., Keshavan, M. S., & Eack, S. M. (2017, March). *Ten-year durability effects of cognitive enhancement therapy in early course schizophrenia*. Paper presented at the 16th International Congress on Schizophrenia Research, San Diego, CA.
20. Guimond, S., Padani, S., Lutz, O., Eack, S. M., Thermenos, H., & Keshavan, M. S. (2017, March). *Impaired emotion regulation during working memory in early schizophrenia*. Paper presented at the 16th International Congress on Schizophrenia Research, San Diego, CA.
21. Wojtalik, J. A. & Eack, S. M. (2017, January). *Cognitive Enhancement Therapy improves quality of life among individuals with schizophrenia who misuse alcohol and cannabis*. Paper presented at the 21st annual meeting of the Society for Social Work and Research, New Orleans, LA.
22. Kmett, J. A. & Eack, S. M. (2017, January). *Forced sexual incidents among individuals with serious mental illness (SMI)*. Poster presented at the 21st annual meeting of the Society for Social Work and Research, New Orleans, LA.
23. Eack, S. M., Greenwald, D. P., Hogarty, S. S., Litschge, M. Y., Porton, S. S., Mazefsky, C. A., & Minshew, N. J. (2016, May). *Cognitive Enhancement Therapy for adults with autism spectrum disorder: Results from an ongoing randomized-controlled trial*. Paper presented at the annual International Meeting for Autism Research, Baltimore, MD.

24. Eack, S. M., & Minshew, N. J. (2016, May). *Common and distinct neuroanatomical abnormalities in adult ASD and schizophrenia*. Paper presented at the annual International Meeting for Autism Research, Baltimore, MD.
25. Bishop-Fitzpatrick, L., Mazefsky, C. A., Minshew, N. J., & Eack, S. M. (2016, May). *Perception of life as stressful, not biological response to stress, predicts greater social disability in adults with autism spectrum disorder*. Poster presented at the annual International Meeting for Autism Research, Baltimore, MD.
26. Eack, S. M., Black, J. M., Garland, E. L., Matto, H., & Brekke, J. S. (2016, January). *Social work and neuroscience: Using neuroimaging to study and address social problems*. Symposium presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
27. Eack, S. M. (2016, January). *Cognitive Enhancement Therapy improves resting-state functional connectivity in schizophrenia: Results from a two-year randomized-controlled trial*. Paper presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
28. Wojtalik, J. A., & Eack, S. M. (2016, January). *Structural and functional neurobiological correlates of functional outcome in schizophrenia: A systematic review*. Paper presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
29. Wojtalik, J. A., Hogarty, S. S., Greenwald, D. P., Cornelius, J., Keshavan, M. S., Phillips, M. L., & Eack, S. M. (2016, January). *Cognitive Enhancement Therapy improves fronto-limbic regulation of emotion in substance misusing schizophrenia*. Poster presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
30. Wojtalik, J. A., Glass, S. A. F., Eack, S. M., Montrose, D. M., Mermon, D., Miewald, J., & Keshavan, M. S. (2016, January). *Factor structure of the Scale of Prodromal Symptoms and empirical development of a brief version in youth at high risk for schizophrenia*. Poster presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
31. Bishop-Fitzpatrick, L., & Eack, S. M. (2016, January). *Social functioning in adults with autism: The role of biological stress response, perceived stress, and stressful life events*. Paper presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
32. Bishop-Fitzpatrick, L., & Eack, S. M. (2016, January). *Social support and stress response in adults with autism and without intellectual disability*. Poster presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
33. Kmett, J. A., & Eack, S. M. (2016, January). *Characteristics of sexual abuse among individuals with severe mental illnesses*. Poster presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.

34. Kmett, J. A., & Eack, S. M. (2016, January). *Childhood sexual abuse and longitudinal substance use among individuals with severe mental illnesses*. Poster presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
35. Newhill, C. E., Eack, S. M., Bell, M. M., & Keshavan, M. S. (2016, January). *A trans-diagnostic comparison of emotion dysregulation in mental health: Implications for NIMH Research Domain Criteria*. Paper presented at the 20th annual meeting of the Society for Social Work and Research, Washington, DC.
36. Eack, S. M., Hogarty, S. S., Greenwald, D. P., Litschge, M. Y., McKnight, S. A. F., Bangalore, S. S., Pogue-Geile, M. F., Keshavan, M. S., & Cornelius, J. R. (March, 2015). *Cognitive Enhancement Therapy in substance misusing schizophrenia: Results of an 18-month feasibility trial*. Poster presented at the 15th International Congress on Schizophrenia Research, Colorado Springs, CO.
37. McKnight, S. A. F., Eack, S. M., Montrose, D., Mermon, D. E., Miewald, J., & Keshavan, M. S. (March, 2015). *Factor structure of the Scale of Prodromal Symptoms and empirical development of a brief version in youth at high risk for schizophrenia*. Poster presented at the 15th International Congress on Schizophrenia Research, Colorado Springs, CO.
38. Mehta, U. M., Eack, S. M., Thermenos, H. W., Mesholam-Gately, R. I., Matthew, I. T., & Keshavan, M. S. (March, 2015). *Morphometry of the mirror neuron system and social cognition performance in schizophrenia*. Poster presented at the 15th International Congress on Schizophrenia Research, Colorado Springs, CO.
39. Wojtalik, J. A., & Eack, S. M. (March, 2015). *Fronto-Limbic neuroplasticity effects of Cognitive Enhancement Therapy during emotion regulation in schizophrenia patients who abuse cannabis*. Poster presented at the 15th International Congress on Schizophrenia Research, Colorado Springs, CO.
40. Black, J. M., & Eack, S. M. (2015, January). *Introduction to functional MRI research and applications to social work*. Workshop presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.
41. Barb, S. M., Litschge, M. Y., Greenwald, D. P., Hogarty, S. S., Bahorik, A. L., Mazefsky, C. A., Minshew, N. J., & Eack, S. M. (2015, January). *Cognitive Enhancement Therapy for adults with autism spectrum disorder: Results and durability of an 18-month feasibility study*. Poster presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.
42. Bishop-Fizpatrick, L., Eisenbaum, E., & Eack, S. M. (2015, January). *State-Level variation in cardiovascular risk among adult athletes with intellectual and developmental disabilities*. Paper presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.

43. Bishop-Fizpatrick, L., Eisenbaum, E., & Eack, S. M. (2015, January). *International variation in health risk factors and accelerated aging in adult athletes with intellectual and developmental disabilities*. Poster presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.
44. Kmett, J. A., & Eack, S. M. (2015, January). *Childhood sexual abuse and substance use: A meta-analysis*. Poster presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.
45. Wojtalik, J. A., Eack, S. M., & Keshavan, M. S. (2015, January). *Identifying the social and emotional brain in early course schizophrenia*. Poster presented at the 19th annual meeting of the Society for Social Work and Research, New Orleans, LA.
46. Eack, S. M., Greenwald, D. P., Hogarty, S. S., Litschge, M. Y., Mazefsky, C. A., & Minshew, N. J. (2014, May). *Cognitive Enhancement Therapy for adults with autism spectrum disorder: Results of an 18-month feasibility study*. Paper presented at the annual International Meeting for Autism Research, Atlanta, GA.
47. Bishop-Fizpatrick, L., Minshew, N. J., & Eack, S. M. (2014, May). *The relationship between social cognition and social functioning in individuals with autism spectrum disorder*. Poster presented at the annual International Meeting for Autism Research, Atlanta, GA.
48. Bishop-Fizpatrick, L., Minshew, N. J., & Eack, S. M. (2014, May). *The relationship between stress and social functioning in individuals with autism spectrum disorder*. Poster presented at the annual International Meeting for Autism Research, Atlanta, GA.

NIH/NICHD \$2,954,547

Change-Sensitive Measurement of Adult Functional Outcomes in Developmental Disabilities

The purpose of this project is to develop improved measures of functional outcome for adults with developmental disabilities that are sensitive to change and can be used in clinical trials designed to improve functional outcome in this population.

Role: mPI

R01 MH118267 Eack (PI) 09/01/2019-06/30/2024
NIH/NIMH \$3,521,230

Cognitive Enhancement for Persistent Negative Symptoms in Schizophrenia

The purpose of this project is to conduct a confirmatory efficacy trial of Cognitive Enhancement Therapy for schizophrenia patients with persistent negative symptoms to examine the impact of engaging neurocognitive and social-cognitive targets on negative symptom reduction in this population.

CER-2018C3-14701 Keshavan (PI) 11/1/2019 - 10/31/2023
PCORI \$3,879,099

Comparative Effectiveness of Cognitive Enhancement Therapy versus Social Skills Training in Serious Mental Illness

The purpose of this project is to implement Cognitive Enhancement Therapy and Social Skills Training interventions for patients with schizophrenia throughout New England and compare the effectiveness of the two approaches.

Role: Co-I

R44 MH123359 Olsen (PI) 04/15/2020-03/31/2025
NIH/NIMH \$2,970,049

Applied Social Cognitive Skills in the Workplace for Transition-Aged Youth with Autism Spectrum Disorder

The purpose of this project is to integrate training in social cognition and job interviewing to improve employment outcomes for transition-aged youth with autism.

Role: Co-I

Mazefsky (PI) 01/01/2020-12/31/2023
Autism Speaks \$750,000

Developing a Gold Standard for Tracking Adult Functional Outcomes in Autism Spectrum Disorder

The purpose of this project is to develop efficient and validated proxy and self-report measures of functional outcome for adults with autism spectrum disorder in the domains of employment, independent living, and social functioning.

Role: Co-PI

TL1 TR001858 Ashcraft (PI) 03/01/2019-02/28/2021
NIH/NCATS \$63,170

Evidence-Based Chronic Pain Management in Primary Care

This project seeks to first, investigate primary care providers' perceptions of strategies to implement evidence-based chronic pain management strategies and second, to identify existing implementation strategies for evidence-based chronic pain management of primary care providers in Pennsylvania.

Role: Mentor

Eack (PI) 11/01/2018-06/30/2021
Pennsylvania Department of Human Services \$54,278

Implementation of Cognitive Enhancement Therapy for Verbal Adults with Autism Throughout the Commonwealth of Pennsylvania

The purpose of this project is to develop implementation and dissemination strategies for community implementation of Cognitive Enhancement Therapy for adults with autism spectrum disorder throughout the Commonwealth of Pennsylvania.

Eack (PI) 02/01/2018-01/31/2021
Community Care Behavioral Health Organization \$247,950

Web-Based Training and Community Implementation of Cognitive Enhancement Therapy

The purpose of this project is to develop and preliminarily test the usability and effectiveness of a web-based training portal to support the community implementation of Cognitive Enhancement Therapy for patients with schizophrenia receiving services in routine community mental health settings.

Eack (PI) 01/01/2018-12/31/2021
University of Pittsburgh \$1,500,000

Center for Interventions to Enhance Community Health (CiTECH)

This developing Center infrastructure grant is designed to integrate expertise from social work

and psychiatry to improve the translation of evidence-based practices to community behavioral health settings. To accomplish this, CiTECH will establish infrastructure to support translational mental health services research through mentorship, strategic expansion of expertise in dissemination and implementation science, pilot awards, methodological and statistical expertise, research staffing, and community engagement.

R01 MH106450 Eack (PI) 06/01/2015-03/31/2023
NIH/NIMH \$3,242,082

Cognitive Enhancement Therapy for Adult Autism Spectrum Disorder

The purpose of this project is to conduct the first adequately-powered randomized-controlled trial of cognitive rehabilitation in adults with autism spectrum disorder. Adults with autism spectrum disorder will be randomized to an 18-month controlled trial of Cognitive Enhancement Therapy (CET) or Enriched Supportive Therapy (EST). Specific aims are to evaluate the comparative effectiveness of CET versus EST for improving cognitive and behavioral outcomes, to examine the impact of CET on underlying neural mechanisms of cognitive enhancement, and to identify personal and neurobiological moderators of treatment response.

R01 MH112584 Prasad (PI) 11/22/2017 - 10/31/2021
NIH/NIMH \$534,329

Dimensional Outcomes and Neural Circuitry Associated with Psychosis Risk

The purpose of this project is to conduct a long-term follow-up of individuals at familial high risk for schizophrenia and to develop dimensional, neurobiologically-based prediction models of the development of psychosis.

Role: Co-I

R21 DA045137 Conklin (PI) 09/30/2017 - 08/31/2019
NIH/NIDA \$413,683

Cognitive Remediation and Transcranial Direct Current Stimulation to Aid Smokers with Schizophrenia

The purpose of this project is to conduct a first study of the feasibility of attention training and transcranial direct current stimulation for facilitating tobacco smoking cessation in patients with schizophrenia. Study aims are to evaluate the feasibility, tolerability, and preliminary efficacy of integrated attention training and tDCS on smoking behavior in schizophrenia.

Role: Co-I

F31 MH113277 Wojtalik (PI) 01/01/2018 – 12/31/2019
NIH/NIMH \$67,248

Functional Significance of Structural Brain Change During Cognitive Remediation in Early Schizophrenia

The purpose of this project is to conduct the first study of the degree to which structural gray matter brain alterations associated with cognitive remediation treatment are beneficial for functional outcome improvement in individuals with early course schizophrenia. The identification of neural targets and treatment biomarkers of improved daily living and functioning in people with schizophrenia will provide vital information needed to enhance the effectiveness of psychosocial/cognitive treatments for improving functional recovery.

Role: Mentor

Haigh (PI) 09/01/2017-08/31/2019

Brain & Behavior Research Foundation \$70,000

Are Hyper- and Hypo-Sensitivity to Pitch Related to Poor Emotion Processing in Autism and Schizophrenia?

The purpose of this project is to conduct a transdiagnostic investigation of auditory processing abnormalities and their contribution to social-cognitive impairment across the autism-schizophrenia spectrum. Event-related potentials collected during auditory discrimination tasks will provide an assessment of the neural mechanisms that contribute to auditory and emotion processing impairments across individuals living with schizophrenia and autism spectrum disorder.

Role: Mentor

R21 MH104487 Eack (PI) 04/01/2015-02/28/2018

NIH/NIMH \$424,659

Long Term Impact of Early Cognitive Enhancement in Schizophrenia

This project proposes to conduct the first comprehensive study of the long-term benefits of cognitive rehabilitation when applied in the early course of schizophrenia. The project will follow a sample of individuals at 10 years post-treatment who were enrolled in a randomized trial of Cognitive Enhancement Therapy while in the early course of schizophrenia, and examine the durability of previously observed treatment effects on the brain, cognition, and behavior.

R34 MH105596 Keshavan (PI) 12/01/2014-11/30/2017

NIH/NIMH \$261,000

Adaptation of Cognitive Enhancement Therapy for Persons at Psychosis High Risk

This proposal seeks to develop, evaluate feasibility, acceptability and obtain preliminary data on efficacy of a novel manualized approach for cognitive enhancement, the Cognition for Learning and for Understanding Everyday Social Situations (CLUES) in individuals at clinical high risk for psychosis based on the principles and approaches of Cognitive Enhancement Therapy.

Role: Consultant

(WPIC – UPMC STEP Program) Chengappa (PI) 10/01/2014-06/30/2015

SAMHSA \$321,010

STEP-SAMHSA Project

This project will train and integrate Cognitive Enhancement Therapy (CET) in community-based collaborative specialty care for early psychosis, as well as provide dedicated service coordination for STEP patients, and supportive employment or job training. Other goals include the use of smart technology to measure improvements in clinical outcomes and to address patient concerns and to develop psychoeducation groups for patient education.

Role: Project PI

Eack (PI with Minshew) 06/01/2014 - 05/31/2018

Autism Research Institute \$29,700

Durability of Neuroplasticity Changes from Cognitive Enhancement Therapy in Adults with Autism Spectrum Disorder

This project seeks to conduct a 1-year post-treatment follow-up study of the neuroplastic effects of a highly novel cognitive rehabilitation intervention for adults with autism spectrum disorder. Adults with autism spectrum disorder completing a randomized-controlled trial of Cognitive Enhancement Therapy will be followed for 1 year post-treatment and assessed using functional and structural neuroimaging measures to examine the long-term durability of the effects of this

treatment on brain function and connectivity in this population.

Brain Imaging, Cognitive Enhancement and Early Schizophrenia

The purpose of this grant is to examine the effects of a novel cognitive rehabilitation program, Cognitive Enhancement Therapy (CET), on the brain in individuals with early course schizophrenia. Specifically, an 18-month clinical trial of CET will be conducted and use integrated neuroimaging techniques to repeatedly assess brain function, structure, and connectivity during the course of CET treatment, as well as the predictive contribution of brain reserves to treatment response. Further, a 1-year post-treatment durability study will be conducted to examine the degree to which neurobiologic, cognitive, and functional effects can be sustained post-treatment in early course schizophrenia patients.

Role: Co-PI

Bishop-Fitzpatrick (PI)

08/01/2013 - 07/31/2015

Autism Speaks

\$59,000

Stress as a Predictor of Outcomes for Adults with Autism Spectrum Disorders

The purpose of this grant is to examine the differences in stress response between adults with ASD and adults who do not have ASD, examine the relationship between stress and meaningful adult outcomes for people with ASD, and use advanced statistical procedures to identify meaningful subgroups in terms of stress response for adults with ASD. This will contribute to the understanding of differing stress responses among a growing and diverse population of adults with ASD, and their impact on outcome.
